Dear sir/ madam

I am interested in the Boilermaker/ Welder position as advertised on the job portal by your organization. The requirements match my educational background and past experience. Hereby, I have enclosed my resume to provide detailed information on my qualifications and skills for your review.

I am a holder of Boilermaker Trade certificate , N3 Engineering Practical Phases 3&4 and CCNSG safety passport , I am a oriented Boilermaker with distinguished abilities to deliver high quality work.

Consistent with the above ,I am an expert in the full fabrication function including , Refurbishments , welding , maintenance and attnding to break downs and working with various machines and execution of duties. Furthermore I have sound appreciation of Health and Safety as well as quality workmanship to ensure zero work related accidents and incidents 100% of time

In light of the above, I submit that I am a candidate whom you can bank on if you want work to be done with due diligence, I feature submit that I will add the much needed diversity to your company to ensure that it remains relevant in service delivery

Looking forward to hearing from you at your earliest convenient time

Yours sincerely,

Sinethemba Mdingi
