Sutton C.V. cont.

JOB DESCRIPTION:

Bending and fitting of various sizes and types pipes by heating and machine bending.

The use of oxygen and acetylene gases.

Silver soldering, gas welding, brazing and soft soldering of various pipes and materials.

Argon arc welding.

Pvc bending.

All work related to plumbing.

Manufacturing, fitting and testing of:

a. Hot and cold water systems

b. Fuel and hydraulic systems

c. Salt water systems

d. Stripping and fitting of all sizes and types of valves.

e. Reading of technical drawings

f. Setting out and developing.

JOB DUTIES

Remove, repair, manufacture and replace all pipework systems on board SANDF vessels.

Disembark pipe systems as per laid down procedure.

Strip all pipe work, despatch for cleaning, survey for re-use capability for overhaul procedures.

Manufacture pipes to replace those which have failed under surveyor test, those prescribed by systematic modification, using pipe slab setting, bending, blocks, pipe cutting machine, furnace and heating torches. Overhaul pipes for re-use by annealing, galvanizing, stress relieving, flanges, facing, renewing unions, nuts and collars and pressure testing of all individual pipes in preparation for installation.

Install all pipes, fittings and brackets on board following sequences for re-installation, including liaison with other trades.

Perform pressure tests on all systems installed.

A. JOB DESCRIPTION

1. POST POSITION IN ORGANISATIONAL STRUCTURE

Indicate Rank of:
 Direct Supervisor / Peers
 Subordinates in Section

2. PURPOSE OF JOB

To supply an effective and efficient mechanical ship repair facility to the fleet of the South African Navy, it's various shore establishment and visiting ships.

Formulate Answers in One Sentence

Correct format to be used: re

1. What service / information is provided?
2. Who receives the service / information?
3. Why is this service / info provided?

3. KEY PERFORMANCE AREAS (Maximum 7)

1	Remove, Repair, Manufacture & Replace all pipework system on board SAN vessels
2	Inteperate job requirements from instructions i.e. verbal, engineering drawings, samples & templates
3	Implement EC's to all naval vessels in order to modernise them
4	Sites jobfat ship/site, measures and makes jigs & templates
5	Conducts Pressure Tests
6	Asssits with supervision & training

DUTIES PER KPA:

- #1 Remove, Repair, Manufacture & Replace all pipework systems on board SAN vessels
- 1.1 Disembark pipe systems as perlaid down procedure.
 - 1.2 Strip all pipe work, despatch for cleaning, survey for re-use capability and categorise pipes for overhaul procedures.
 - 1.3 Manufacture pipes to replace those which have failed under survey or test or those required by prescribed systematic shcnging or system modification using pipe slab setting, bending, blocks, pipe cutting machine, furnac and heating torches, overhaul pipes for re-use by annealing, galvanising, stress relieving, flanges, facing, renewing unions, nuts and collars and pressure testing of all invidual pipes in preparation for installation.
 - 1.4 Install all pipes, fittings and brackets on board following sequence for reinstallation including liaison with other trades, carry out systems pressure test.

Reference for Mr Alvin Sutton

To whom it may concern,

Morrison Construction (part of Galliford Try) are the main building contractor for the Halley VI Project in Antarctica. This is a major infrastructure project providing a completely new and innovative Antarctic research station for the British Antarctic Survey which is a UK Government funded scientific research body.

Alvin Sutton has worked for us throughout the second of our Antarctic build seasons as part of the cladding team. The team's role was to install key elements of the new stations external GRP cladding. The cladding was a critical element of an ambitious programme and Alvin's contribution ensured a successful season.

Since working for us Alvin has demonstrated a strong work ethic in some challenging conditions, with his excellent communication skills and comprehension of the work expected he integrated well within a multi-national team. Alvin carried out a variety of roles whilst working within the cladding team with his main responsibility being to ensure all interfaces were securely fastened. Alvin demonstrated consistent diligence and gave the management team valued confidence that the quality of the workmanship was being maintained to a high standard.

He has worked long hours in often difficult and demanding conditions and proven to be very adaptable. In all respects he has performed exceptionally well. He has initiative, enthusiasm and the ability to work without supervision. He is also a loyal and willing worker that can be depended upon to give his best. The project workforce holds him in high regard and he is well suited to communal living and the realities of living in remote locations.

I would not hesitate to recommend Alvin to any prospective employer seeking his qualities.

We wish him well in his future endeavours.

1. This is to certify that Mr Sutton has been employed via the contracting firm Taskforce in the Submarine Section of the SA Naval Dockyard (Simon's Town) in the capacity as an Artisan Pipefitter/Plumber for a continuous period of approximately 6 years until present.
2. During this time he has worked on various systems, namely :-
 - a. high and low pressure air and oil systems
 - b. centralized lubrication systems
 - c. bouyancy regulation systems
 - d. seawater cooling and domestic pipe systems.
3. His activities during this period included :-
 - a. the manufacture of new pipes by means of the pipe setting slab, bending blocks, pipe bending machines, furnace and heat torches
 - b. the overhauling of pipes for re-use by annealing, galvanizing, stress relieving, facing flanges and renewing union nuts and collars
 - c. the pressure testing of (up to 375 bar) pipes and fittings in preparation for installation
 - d. the installing of pipes and fittings and (manufactured) brackets onboard the submarine by meticulously following the sequence of re-installation as per drawings.
4. Mr Sutton has always displayed a high degree of enthusiasm and skill whilst performing any task assigned to him. His timekeeping and attendance record have also been satisfactory.
5. The undersigned takes the opportunity to thank Mr Sutton for his consistently loyal co-operation and further recommend him as an excellent choice to any organization who might show an interest in employing his competent skills.
